Fly Car/First Response Car – Where did funds come from? Fund drives over past 4 years. Where it will be housed who and how will it be used? Working out details, looking at having it at one of the Ambulance paid/volunteers' house in Berlin and it will be used as a First Response vehicle and hopefully cut down time it takes to get help to the scene.

Getting a Memorandum of Understanding so that all 3 towns know what they are entering.

Billing patients/insurance company: They bill the insurance company if the person is transported

There is a possibility of getting some money from the county.

Concerns over having a solid business plan with room to evolve, and possibility of losing volunteers.

Will be holding a meeting on August 6, 2020 w/all three towns. Details to be announced.
